**Subject:** FW: IMPORTANT FOIA 404-12 REQUEST

The original request is for internal EPA and EPA/ADEC correspondence but has been narrowed to only Cook Inlet Development and Production and to the timeframe January 1, 2010 until July 5, 2016.

Last year we fulfilled a request for EPA internal documents related to the ELGs so the timeframe on that sub-topic is May 19, 2015 through July 5, 2016.

In 2012, Trustees filed a FOIA request for compliance and enforcement documents so the timeframe for that sub-topic is September 10, 2012 through July 5, 2016.

Dear Cindi and Felicia,

That's correct. We do not want the scope narrowed to exclude compliance documents, but it is okay to limit the timeframe for the compliance documents to those dated after September 10, 2012. Thank you for all your help.

Best wishes,  
Suzanne

Suzanne,

Please confirm that you would do not want the scope narrowed (to exclude compliance documents) but that the time frame will be limited to after September 10, 2012, the date of the previous FOIA which is attached (I know you have it but I am not sure whether I shared it with Felicia).

Thanks

Cindi

Dear Cindi,

Thank you for the clarification. We would appreciate receiving the compliance information. However, per your suggestion, we would be okay with limiting the timeframe to compliance-related items that post-date our previous FOIA request.

Thank you again for all your help.

Best wishes,  
Suzanne

Suzanne,

In going through my own emails, I found this FOIA from Trustees that asks for CI compliance information. So at the very least, the timeframe could be cut down to after the date of this request.
